DATE DISTR. 20 September 1949

SUBJECT Airfield at Vladimir, Moscow LD

NO. OF PAGES 1

25X1C

NO. OF ENCLS.
(LISTED BELOW)SUPPLEMENT TO
REPORT NO.

25X1X

1. a. The 3,300 x 5,000 feet airfield was located east of VLADIMIR (40°25'N-56°09'E) south of the RR line to GORKY in the angle formed by two rivers. A diagonal runway was about 160 x 3,300 feet. The concrete surface, which was damaged, had not yet been repaired. There was a second runway, about the same size, covered with knurled asphalt which had been completely reconditioned.
- b. A four-story building, about 66 x 100 feet, with a tower-like superstructure equipped with windcone and antenna, was located at the northern field border. The first floor had five sliding doors covering two thirds of the front. The third and fourth floors contained quarters for SAs.
- c. A 66 x 130 feet building housing a workshop and mechanics quarters was located at the southern field border.
2. The field was occupied by about 20 twin-engine, low-wing monoplanes with in-line engine and biplanes (trainers).

Comments: This is the first report on the VLADIMIR airfield. The statements require confirmation and supplementary information.

This document is hereby regraded to CONFIDENTIAL in accordance with the letter of 16 October 1978 from the Director of Central Intelligence to the Archivist of the United States.
